Joan Solé Jiménez

Full Stack Developer · Generative AI Products · Computer Engineering student (FIB–UPC)

Barcelona area, Spain · +34 744 489 974 · joansolejimenez@gmail.com · linkedin.com/in/joan-solé-jiménez

Full-stack developer in the AI products team at TheEtailers, where I build and ship generative-AI products used by paying customers and a city council. Background in IT systems at Bjarke Ingels Group. I work AI-first with Claude Code and take products from first prototype to production.

EXPERIENCE

Full Stack Developer, AI Products · TheEtailers | Barcelona | Mar 2026 – Present

AI division of an e-commerce outsourcing company · started as an intern, permanent contract since Sep 2026.

- **Picgenio** (picgenio.ai), AI product photo and video SaaS for e-commerce: built the video generator (Kling model cascade with Google Veo fallback, multi-scene storyboards generated in parallel and joined client-side, CapCut-style subtitles), background generation jobs that survive navigation and reloads, guided onboarding and the partner landing pages. Next.js, TypeScript, Prisma, PostgreSQL, Stripe.
- **Traingenio**, AI corporate training platform: built Motiongenio, which turns PDFs and slide decks into branded motion-graphics videos rendered with Remotion (AI script, voice narration, captions, extra languages), and the learner area with AI-generated daily quizzes, final exams and progress tracking.
- **AI phone agent for Santa Coloma de Gramenet city council**: citizens book, change or cancel bulky-waste pickups by voice in Catalan or Spanish. Sole developer of the ElevenLabs agent and the Next.js broker to the council's booking system (7 webhooks, token caching and retries, Spanish/Catalan street matching), plus the admin panel and handover documentation.

IT Intern · Bjarke Ingels Group (BIG) | Barcelona | Jun 2025 – Jan 2026

- Administered Microsoft Azure, Entra ID, Intune, Windows Server and Active Directory for an international architecture firm.
- Configured and troubleshot hybrid on-premise/cloud networks; basic Kubernetes administration of containerised workloads.
- Managed endpoint security with Microsoft Defender, supported the rollout of AI tools across teams, and handled user support and onboarding.

Programmer & Data Analyst · Ollé Amortidors | Igualada | Jun 2024 – Aug 2024

- Built C++ and Excel VBA automation tools and data models for production planning at a shock-absorber maker.

Head of Public Relations · Sala Royale | Vilafranca del Penedès | Sep 2023 – Jul 2025

- Led and trained the nightclub's promotion team, ran its social media and campaigns, and built and maintained its website.

Other: Bike Technician, Decathlon (2023) · Chess Instructor, Consell Esportiu de l'Alt Penedès (2022–23)

PROJECTS

QusAP · University learning platform · in production

Used every week by 132 students in a UPC Machine Theory course; replaces a legacy Visual Basic/Access system. Teachers build courses with parametrised questions, schedule live class sessions, and students get instant automatic grading. Next.js, TypeScript, Supabase (Postgres, Row-Level Security, Edge Functions), Stripe, Vercel; Catalan, Spanish and English.

Ticketing & access control for a 1,000-capacity nightclub · live in test mode

Replacement for a commercial ticketing platform: online sales with Stripe and signed QR tickets, promoter links and guest lists, an Expo door-scanning app that works offline, and a staff dashboard. Next.js, React Native, Supabase.

EDUCATION

Bachelor's Degree in Computer Engineering · FIB, Universitat Politècnica de Catalunya (UPC) · In progress

SKILLS

Programming: TypeScript, JavaScript, Python, C, C++, SQL, React, Next.js, Node.js, React Native (Expo), Prisma

Generative AI: Google Gemini and Veo, Kling, ElevenLabs Conversational AI, Synthesia, Remotion, prompt and agent design

AI-assisted development: Claude Code as main coding agent, with custom skills and an Obsidian knowledge base (decisions, debugging logs) that the agent reads and maintains

Cloud & infrastructure: Vercel, Supabase, PostgreSQL, Stripe, Microsoft Azure, Windows Server, Active Directory, Kubernetes

Languages: Catalan (native), Spanish (native), English (C1, certified) · Driving licence and own vehicle
